21. Teaching and Learning Strategies

Strategy

This course includes many basic topics related to the concept of the curriculum, its importance and types, its role in achieving educational goals, the foundations of construction, and its elements.

22. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
2 / 2025	2	How to teach the subject	The concept of curriculum	theoretical	Tests and discussion
8 / 2 / 2025	2	How to teach the subject	Types of curriculum and characteristics	theoretical	Tests and discussion
5 / 2 / 2025	2	How to teach the subject	The old and modern curriculum	theoretical	Tests and discussion
22/2/2025	2	How to teach the subject	Foundations of curriculum construction	theoretical	Tests and discussion
9 / 2 / 2025	2	How to teach the subject	Knowledge foundations	theoretical	Tests and discussion
7/3/2025	2	How to teach the subject	Psychological foundations	theoretical	Tests and discussion
14/3/2025	2	How to teach the subject	Social and cultural foundations	theoretical	Tests and discussion
1 / 3 / 2025	2	How to teach the subject	First monthly exam	theoretical	Tests and discussion
8 / 3 / 2025	2	How to teach the subject	Philosophical foundations	theoretical	Tests and discussion

4/4/2025	2	How to teach the subject	Elements of school curriculum	theoretical	Tests discussion
1 / 4 / 2025	2	How to teach the subject	The concept curriculum	theoretical	Tests discussion
8 / 4 / 2025	2	How to teach the subject	Types curriculum and characteristics	theoretical	Tests discussion
5 / 4 / 2025	2	How to teach the subject	The old modern curriculum	theoretical	Tests discussion
2/5/2025	2	How to teach the subject	Foundations curriculum construction	theoretical	Tests discussion
9 / 5 / 2025	2	How to teach the subject	Knowledge foundations	theoretical	Tests discussion
15/5/2025	2	How to teach the subject	Psychological foundations	theoretical	Tests discussion

23. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc

24. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Curriculum and textbook - Dr. Rah Ali Saleh Dr.. A Turkish s entered
Main references (sources)	
Recommended books and references (scientific journals, reports...)	
Electronic References, Websites	

Course Description Form

1. Course Name:	
Guidance, health and psychology	
2. Course Code: :	
EHD 303	
3. Semester / Year:	
The first 2024/2025	
4. Description Preparation Date:	
5 / 10 / 2024	
5. Available Attendance Forms	
: Daily attendance in the classroom	
6. Number of Credit Hours (Total) / Number of Units (Total)	
2 Each level Number of study hours (total) 2 hours level / 3 = 2 hours * 15 weeks = 30	
7. Course administrator's name (mention all, if more than one name)	
Name: a. Dr.. Akram Yassin Muhammad Email: akram.yaseen@uoanbar.edu.iq	
8. Course Objectives	
a.Course Objectives a. Giving students a complete idea about psychological counseling and the extent which this science contributes to solving psychological problems. B. Introducing students to the concept of psychological counseling and psychological guidance. C– Identifying behavioral and psychological problems and disorders and their causes and being able to diagnose them. D– Introducing students to psychological counseling theories and how to benefit from them.	
9. Teaching and Learning Strategies	
Strate	a. Knowledge and understanding a . 1 The student understands the concept of psychological counseling and psychological problems. a . 2 List the types of guidance. a . 3 Identify educational guidance programs. a . 4 Explains the standards that must be followed and applied in psychological counseling. a . 5 Providing students with thinking and analytical skills to enable them to confront the problems they face.

B. Subject-specific skills.

- B.1 Enabling the student to understand and know the basics of psychological counselling.
- B.2 Urging students to write reports and research in the field of psychological counselling.
- B.3 Make visits to deaf and autism centers for actual viewing.
- B.4 Urging students to participate in scientific seminars.
- B.5 shows the importance of educational and psychological guidance.

Teaching and Learning Methods

- Continuous daily and weekly tests.
- Activities during the lesson.
- Directing students to some websites to benefit from them.

Assessment methods

- Participation during the lesson.
- Providing activities.
- Achievement tests are as follows: - A. Semester exams 50%
B. End of semester exams 50%

C. Thinking Skills

- C1 - Developing students' ability to perform assignments and submit them on the scheduled date.
- C2- Presents a topic for students to test.
- C3- Developing students' ability to dialogue and discuss.

Teaching and Learning Methods

- Conduct dialogue and discussion in an applied manner related to the reality of daily life to attract students to a topic Lesson without straying from the core of the topic so that the material is flexible and able to be understood and analysed .
- Giving students some group activities and assignments among themselves.
- Paying attention to daily assignments and tests and allocating a percentage of the grade to them.

Assessment methods

- Involving students in the lesson, evidence of their commitment and interest.
- Assigning students to prepare reports, and adhering to the deadline specified for them.
- Conducting monthly achievement tests. (oral, written), expressing commitment By achieving knowledge and skills

Evaluation methods.

- Involving students in the lesson, evidence of their commitment and interest.
- Assigning students to prepare reports, and adhering to the deadline specified for them.
- Conducting monthly achievement tests. (oral, written), expressing commitment
With cognitive and skill achievement.

With cognitive and skill achievement.

Strategy	Teaching and learning methods. - Continuous daily and weekly tests. - Activities during the lesson. - Directing students to some websites to benefit from them. Evaluation methods. - Participation during the lesson. - Providing activities. - Achievement tests are as follows: - A. Semester exams 50% B. End of semester exams 50% Teaching and learning methods. - Conduct dialogue and discussion in an applied manner related to the reality of daily life to attract students to a topic Lesson without straying from the core of the topic so that the material is flexible and able to be understood and analysed

- Giving students some group activities and assignments among themselves.
 - Paying attention to daily assignments and tests and allocating a percentage of the grade to them.
- Evaluation methods.
- Involving students in the lesson, evidence of their commitment and interest.
 - Assigning students to prepare reports, and adhering to the deadline specified for them.
 - Conducting monthly achievement tests. (oral, written), expressing commitment With cognitive and skill achievement.
- Dr . General and transferable skills (other skills related to employability and personal development).
- D1- Developing students' ability to deal with advanced tests of modern education.
- D2- Developing students' ability to deal with the Internet.
- D3- Developing students' ability to engage in dialogue and discussion to learn about countries that have advanced

Teaching and Learning Methods

- Continuous daily and weekly tests.
- Activities during the lesson.
- Directing students to some websites to benefit from them.

Assessment methods

- Participation during the lesson.
- Providing activities.
- Achievement tests are as follows: - A. Semester exams 50%
B. End of semester exams 50%

C. Thinking Skills

- C1 - Developing students' ability to perform assignments and submit them on the scheduled date.
- C2- Presents a topic for students to test.
- C3- Developing students' ability to dialogue and discuss.

Teaching and Learning Methods

- Conduct dialogue and discussion in an applied manner related to the reality of daily life to attract students to a topic Lesson without straying from the core of the topic so that the material is flexible and able to be understood and analysed .
- Giving students some group activities and assignments among themselves.
- Paying attention to daily assignments and tests and allocating a percentage of the grade to them.

Assessment methods

- Involving students in the lesson, evidence of their commitment and interest.
- Assigning students to prepare reports, and adhering to the deadline specified for them.
- Conducting monthly achievement tests. (oral, written), expressing commitment By achieving knowledge and skills

With cognitive and skill achievement.

10. Course Structure

Week	Hours	ILOs	Unit / Module or Topic Title	Teaching Method	Assessment Method
١	2	Introduction to teaching - teaching theories	Concept theory, teaching theory, learning theory	theoretical	Questions and dialogue
٢	2	Models of teaching theories	What are the models of teaching theories?	theoretical	General questions and discussion
٣	2	Teaching terminology	The concept of teaching method	theoretical	general questions

٤	2	Criteria for choosing a teaching method	The importance of teaching method	theoretical	Questions, dialogue and discussion
٥	2	Teaching models	The concept of teaching models	theoretical	Various questions
٦	2	Teaching skills	Types of teaching skills	theoretical	Questions and discussion
7	2	Effective teaching	Effective teaching skills	theoretical	Questions and discussion
٨	2	Classifications of teaching methods	Common teaching methods	theoretical	Real questions and dialogue
٩	2	Cooperative learning method	Its steps, and role-playing	theoretical	Questions and discussion
١٠	2	Learning method for mastery, brainstorming	What is meant, its types	theoretical	Questions, dialogue and discussion
١١	2	Discussion method (dialogue)	Types of discussion method	theoretical	Questions and discussion
12	2	The method of induction and deduction	Her steps	theoretical	Questions and discussion
١٣	2	Teaching planning	The importance and types of plans	theoretical	Questions and dialogue
١٤	2	Educational goals	Plan templates	theoretical	Questions and discussion
١٥	2	semester test /	Achievement tests		My test is monthly

11. Course Evaluation

Distribution of the score out of 100 according to the tasks assigned to the student, such as daily preparation, oral, monthly, or written exams, reports, etc.

12. Learning and Teaching Resources

Required textbooks (curricular books any)	- Ibrahim, Magdy Aziz, (2004), Educational Strategies and Methods Learning, Cairo Anglo-Egyptian Library, 1st edition - Ibn Manzur, (1956), Muhammad bin Makram bin Ali, Abu Al-Fadl, Jamal al-Din Ibn Manzur, Lisan al-Arab, Publisher: Dar Sader - Beirut, Third edition. - Al-Alusi, Akram Yassin Muhammad, Teaching (concepts - foundations - theories - Models - Methods - Planning) Iraq, 1st edition, Al-Yusr Press, 2021. - Al-Hila, Muhammad Mahmoud: Teaching methods and strategies, 2003. - Walid Ahmed Jaber, general teaching methods, their planning and educational applications, I/1 2005. - Mandour Abdel Salam Fathallah: The simple introduction to curricula and methods Teaching, Riyadh, International Publishing House, first edition, 2007 - Al-Tamimi, Awad Jassim (2011) General Teaching Methods, Baghdad..
